Normalization Notes

Integation Notes:	<p>FWS has ownership of special designation areas. Most of these overlap with their standard ownership layer. There were two areas (a 40 acre parcel that is part of the Little Pend Oreille National Wildlife Refuge in Stevens County; and Nearly 200,000 acres along the Columbia River surrounding Hanford, that is part of the Saddle Mountain National Wildlife refuge) that did not overlap and were not included in the standard ownership layer. The small parcel in Stevens County was appended to the FWSInterest feature class. The large area around Hanford was process using the steps below.</p> <p>Processing done:</p> <ol style="list-style-type: none"> 1. The SpecialDesignation parcel was erased in ArcGIS using the Saddle Mountain National Wildlife Refuge polygons in FWSInterest. 2. The result was converted to a single-part feature class and all slivers were deleted. 3. The remaining polygon was appended to the FWSInterest feature class.
